Subject: RE: report for the inspection report

For the pushing or for the combustion stack?

I think a separate one would be better to cover all of the details.

Subject: report for the inspection report

Pat,

Brian just came by and told me you may need to generate a separate DOCS monitoring report for the May 8th AK Steel inspection. He also said you can choose to add in the opacity data to the inspection report instead if you prefer.

Thoughts?

Gina
